

YASH GAIKWAD

Data Analyst | SQL • Excel • Python (Pandas) • Power BI

Pune, Maharashtra | +91 7841885868 | yashg0030@gmail.com | linkedin.com/in/yash-gaikwad-a20237228 | github.com/yashgaikwad095

PROFESSIONAL SUMMARY

Computer Engineering graduate with hands-on proficiency across the full data analysis stack — SQL, Excel, Python (Pandas), and Power BI — built through a structured, self-directed learning path applied to real datasets rather than passive tutorials. Delivered an end-to-end IPL ball-by-ball analytics project independently, from data cleaning through business-ready insights, using AI-assisted workflows to accelerate learning while retaining full ownership of code and analysis. HackerRank-certified in SQL (Intermediate).

KEY HIGHLIGHTS

- Built and polished a flagship end-to-end data analysis project (IPL ball-by-ball dataset, 150K+ deliveries) — cleaned raw data, engineered new metrics (strike rate, six-hitting frequency), and documented insights in a recruiter-ready GitHub repository, pinned on profile
- HackerRank Certified — SQL (Intermediate), a verified skill-based assessment
- Completed a 300-hour structured certification — freeCodeCamp “Data Analysis with Python” — covering Pandas, NumPy, Matplotlib, and Seaborn
- Independently completed a self-directed 60-day upskilling plan spanning SQL, Excel, Python, and Power BI, applying each concept to real, messy datasets end-to-end

TECHNICAL SKILLS

- Databases & Querying: SQL (MySQL) — Joins, Subqueries, Window Functions (RANK, LAG/LEAD), CTEs, GROUP BY / HAVING, CASE WHEN
- Data Analysis (Python): Pandas, NumPy — Data Cleaning, GroupBy Aggregation, Merge/Join/Concat, Missing-Value & Duplicate Handling
- Visualization & BI: Seaborn, Matplotlib, Power BI (Power Query, Interactive Dashboards, DAX basics)
- Spreadsheets: Excel — XLOOKUP, SUMIFS/COUNTIFS, Pivot Tables, Conditional Formatting, Data Validation
- Tools: Jupyter Notebook, Google Colab, MySQL Workbench, Git, GitHub

PROJECTS

IPL Ball-by-Ball Data Analysis (Flagship Project) | *Python, Pandas, Seaborn*

github.com/yashgaikwad095/IPL-Data-Analysis-Project

- Cleaned and structured a ball-by-ball IPL delivery dataset, correctly distinguishing genuine missing dismissal records from valid non-dismissal deliveries instead of dropping rows
- Engineered strike rate and six-hitting metrics beyond raw run totals, surfacing scoring-style differences (aggressive vs. accumulative batting) invisible in total-runs rankings alone
- Documented methodology and findings with markdown-explained analysis steps and a summarized “Key Insights” section, making the notebook self-explanatory to a non-technical reviewer

Google Play Store Market Analytics | *Python, SQL, Seaborn*

github.com/yashgaikwad095/PlayStore-Data-Analysis

- Built an end-to-end pipeline loading 10,000+ app records from CSV into a local SQLite database using Python
- Cleaned and standardized inconsistent text fields with Pandas, then queried and visualized market-penetration trends by category and pricing using Seaborn

Retail Store Sales Analytics | *SQL (MySQL)*

github.com/yashgaikwad095/Retail-Store-SQL-Analysis

- Authored 150+ SQL queries across 10 skill areas — joins, aggregations, subqueries, and views — against a retail sales schema, demonstrating query-writing range from basic filtering through advanced analysis

Interactive Student Performance Dashboard | *Power BI*

- Connected and cleaned a raw dataset in Power Query — resolving missing values via mean/mode imputation and removing duplicate records — then built an interactive dashboard with KPI cards, a city-wise performance chart, and a full data table

CERTIFICATIONS

- SQL (Intermediate) — HackerRank
- Data Analysis with Python — freeCodeCamp (300 hrs; Pandas, NumPy, Matplotlib, Seaborn,)
- Data Science Internship (1 month, educational) — Prodigy InfoTech, July 2026
- Introduction to Data Visualization — Alison
- Introduction to MS Excel — Alison

EDUCATION

B.E. Computer Engineering | **Mumbai University** | **2023–2026**

Rajendra Mane College of Engineering & Technology, Ratnagiri

Diploma in Computer Engineering | **MSBTE** | **2019–2021**

JSPM Bhivrabai Sawant Polytechnic, Wagholi
